

**PREMIER  
OF MANITOBA**

Legislative Building  
Winnipeg, Manitoba R3C 0V8  
CANADA

**A MESSAGE FROM THE PREMIER**

*On behalf of all Manitobans, I am pleased to extend a warm welcome to those attending the 2023 Annual Scientific Meeting hosted by the Canadian Society of Transplantation this week in Winnipeg. For those visiting from outside our province, welcome to Winnipeg and to Manitoba. Bienvenue à Winnipeg. Bienvenue au Manitoba.*

*This meeting brings together over 500 delegates, including international scientists, transplant professionals, policy-makers, and students to share the latest research and information on organ and cell transplantation and regenerative medicine. It is through the work of the Canadian Society of Transplantation and its partners that we can help to improve the quality of life for those affected by organ and cell transplantation. It is a privilege for Manitoba to host this year's professional meeting.*

*During your stay with us this week, I encourage you to explore our province and discover why we have a special place in Canada. Whether it is our professional sports teams, our rich and diverse arts and culture sector, or our pristine wilderness, there is so much in Manitoba to experience and enjoy.*

*I join all Manitobans in congratulating the organizing committee of the 2023 Canadian Transplant Summit for planning a successful week of events. I wish you all the best for a productive conference and I hope you enjoy your stay in our beautiful province.*

A handwritten signature in black ink that reads "Heather Stefanson".
