

2019 Canadian Transplant Summit October 16-20, 2019

Bringing together stakeholders in Canadian transplantation with cutting edge science and leading clinical practices that can be used to advance the practice and science of transplantation in Canada!

EXHIBITOR AND SPONSORSHIP PROSPECTUS

<http://www.cst-transplant.ca/>

To Our Recent and Prospective **About CDTRP**

Exhibitors and Sponsors:

It is with great pleasure that the Canadian Society of Transplantation (CST), Canadian Donation and Transplant Research Program (CDTRP), Canadian Blood Services (CBS) invite you to exhibit and sponsor at the 2019 Canadian Society of Transplantation Annual Scientific Meeting.

The Canadian Society of Transplantation (CST) is the organization of professionals dedicated to leading, advancing and advocating for patient care, research, and education in donation and transplantation in Canada. For more information about CST, visit www.cst-transplant.ca

By joining us as a Sponsor, you will be instrumental in the success of the 2019 Canadian Transplant Summit. We expect 400 Canadian delegates and several international delegates, including key opinion leaders in the field of transplantation from around the world. The focus of the 2019 meeting will be on.

We sincerely hope that we can count on your support this year. You will receive all privileges of the specific sponsorship level as outlined in the attached Exhibitor Prospectus, including priority access to Industry Symposium time slots. We look forward to your participation.

Sincerely,
2019 Joint Executive and Planning Committees

The Canadian Donation and Transplant Research Program (CDTRP) is a national research network designed to increase organ and tissue donation in Canada and enhance the survival and quality of life of Canadians who receive transplants.

Announced at the end of April 2013, the CDTRP develops new knowledge and health care practices to increase the availability of transplants for Canadians in need and improve longterm outcomes for patients receiving a transplant. Until now, researchers have worked within their own provinces and clinical domains. The CDTRP is the first program to bring together and integrate solid organ transplant, bone marrow transplant and donation and critical care research communities from across the country.

About **CBS**

Canadian patients depend on CBS to manage a safe, secure and cost-effective blood system. We bring quality to every aspect of our work - from collecting, testing and manufacturing blood, blood components and stem cells to knowledge creation and dissemination to conducting ground-breaking research.

2019 Canadian Transplant Summit Planning Committee

2019 Canadian Transplant Summit

In 2019, the CST, CDTRP, and CBS will be bringing together all Canadian stakeholders in the field of transplant to share a unique opportunity to network and learn from each other. Delegates include physicians, allied health professionals, trainees, organ procurement organizations, patients, government officials, and our industry partners.

As a member of the transplant community, we hope you will join us this year. To gain access to the main plenary room at the Banff Center, Alberta, delegates will be walking through the exhibitor's hall. The exhibitors will still be invited to the popular Presidents' Cocktail Reception, however this year we will only host one main social event at the Mountainview BBQ in Banff while freeing up time for all participants to participate in their advisory board meetings, and meet with colleagues in this iconic Canadian setting!

Please contact the CST Office to add to your Sponsorship package:

- Breakfast Symposium
- Lunch Symposium
- Coffee Break Sponsor
- Lanyard Sponsor
- EPosters
- App splash page sponsor

Plenary Topics include:

1. Expanding the donor pool: to accept or not to....
2. Modelling Organ Allocation
3. Hot topics in ischemia-reperfusion injury
